\* Joomla, WordPress or Drupal Content Management Systems

\*\* CMS stand for "Content Management System"

\*\*\* Package pricing is for design only. Domain Pricing and Hosting Fees are Separate. We are not a hosting company. We will use whom you want us to use. We also have relationships with hosting companies and will facilitate the entire process either way. Domain costs are an annual fee usually around \$10 & hosting is usually \$10 per month

# Celter Technologies

## Template Base Package \$500

- ⊖ Choose a template from the many you can decide from with this link
- ⊖ We will include 2 custom graphics to add appeal
- ⊖ We will add up to 5 graphics or Logo(s) that you would want to supply
- ⊖ Up to 5 pages based on the template you chose
- ⊖ Configure and insert the text you want us to fill the pages with
- ⊖ Facilitate Domain acquisition and registration
- ⊖ Site configuration (Setup your new domain)
- ⊖ Configure basic google Search Engine Optimization

All Packages include a guarantee satisfaction completion on our development server. You don't get billed until the design is exactly what you are looking for.

When it is time to put your site, live on the web, we will bill you the domain registration fee and hosting fee. We ask for this money up front because it is not our vehicle for generating income. We just pass the cost on to you. If you have a preferred hosting company, let us know who they might be. If not we know of many...

## Extra Web Components

- ⊖ \$50 per hour for Advanced Search Engine Optimization
- ⊖ \$55 per hour layout, design & site updating
- ⊖ \$75 per hour for video editing
- ⊖ \$85 per hour for backend programming and database design
- ⊖ \$125 per hour for onsite video and image recording

Example time frames:

- User supplied image to web ready takes about 10 minutes
- Add a page to conform to existing layout takes about an hour
- Custom forms take about 1-2 hours to backend code
- Create image gallery takes about 2-4 hours if the images are already prepped for web (based on 20-25 images)
- Create a flash widget like the one here takes about 2 hours

These are just to be used as basic guidelines to help your determine the costs involved in developing a web site. If you are looking for an accurate price, please contact us so we can learn what it is you wish to accomplish. We can then supply you with a quotation we can adhere to.

We look forward to hearing your design and functionality ideas...
